About

Notepad++ is a free (as in "free speech" and also as in "free beer") source code editor that supports several languages. Running in the MS Windows environment, its use is g

Based on the powerful editing component **Scintilla**, **Notepad++** is written in C++ and ensures a higher execution speed and smaller program size. By optimizing as much as possible for user friendliness, **Notepad++** is trying to reduce the world carbon dioxide emissions. It can throttle down and reduce power consumption, resulting in a greener environ
